Integrating Risk and Security Credential

An Awareness Certification Credential

A first introduction to the topic, not an in-depth treatment

No Prerequisites

Knowledge-Based

5 Learning Units

Credential Value 1

Copyright © The Open Group 2023

Integrating Risk and Security

Individuals who have earned this credential have an understanding of:

- Essential security and risk concepts in relation to the TOGAF® Architecture Development Method (ADM)
- Information Security Management (ISM)
- The broader concept of Enterprise Risk Management (ERM)
- The relationships with other IT security
- Risk standards like the ISO/IEC 27000 family, ISO 31000, and COBIT®
- Enterprise Security Architecture (ESA), ERM, and ISM
- How security and risk management form a cross-cutting concern for the organization in general and for the Security Architect in particular
