

TOGAF® Framework: Digital Specialist

This certification credential demonstrates that the individual possesses knowledge and understanding of how to apply Enterprise Architecture and the TOGAF Standard to support the Digital enterprise.

The learning objectives at this level focus on knowledge and comprehension.

Competencies

Certified individuals will have the following competencies:

- A common language with Enterprise Architects and Digital Practitioners
- An understanding of the importance of architecture for the Digital enterprise
- Knowledge of best practices and techniques for architecting for Digital Transformation

Target Audience

- Enterprise Architects who need to understand how to support the Digital enterprise

The Value of this Certification

Certified individuals will have demonstrated their understanding of:

- How Enterprise Architecture and the TOGAF Standard support the Digital enterprise
- The usage and relationships of key terminology for Digital Transformation
- The four Digital enterprise contexts of the DPBoK™ Standard and how they relate to the TOGAF Standard
- Which TOGAF principles support the contexts of the Digital enterprise
- Digital Technology Readiness Assessment
- Factors impacting Digital technology adoption
- An approach for Digital technology adoption
- How to apply Digital Technology Readiness Assessment with the TOGAF Architecture Development Method (ADM)

Assessment

Certification is achieved by passing an assessment made available by The Open Group which covers the breadth of the Learning Outcomes for the credential.

Prerequisites

TOGAF certification at the Foundation level or higher.

Study Track

Candidates may choose how they wish to study for this certification credential, including training course attendance or self-study. Courses will be available from The Open Group Accredited Training Course Providers.

Certification

The Open Group publishes the definitive directory of certified individuals, and issues certificates and Open Badges.

The duration of certification is indefinite – certification is to a given version of the Body of Knowledge and does not expire, so there are no re-certification or renewal requirements.

Next Steps

Candidates may choose to:

- Apply for the Digital Architect track within The Open Group Open Professions program (a skills and experience-based program)
- Study for the TOGAF® Framework: Agile Specialist certification credential
- Earn TOGAF Role-Based Badges to demonstrate complementary knowledge and skills
