

# TOGAF® Business Architecture Level 1

---

The purpose of the TOGAF Business Architecture Level 1 certification credential is to provide validation that individuals have knowledge and understanding of Business Modeling, Business Capabilities, TOGAF Business Scenarios, Information Mapping, and Value Streams and how to apply them in development of a Business Architecture based on the TOGAF® Standard, Version 9.2.

The learning objectives for this certification credential focus on knowledge and comprehension. This credential leads to the award of an Open Badge.

## Competencies

---

Certified individuals will have the following competencies:

- An understanding of Business Architecture based on the TOGAF Standard, Version 9.2
- The ability to apply techniques in development of a Business Architecture

## Target Audience

---

- Individuals who require an understanding of Business Architecture based on the TOGAF Standard, Version 9.2
- Professionals who are working in roles associated with developing a Business Architecture such as those responsible for business planning
- Architects who want to add a specialization to their existing TOGAF Certification
- Trainers wishing to deliver TOGAF Business Architecture Level 1 Accredited Training Courses

## The Value of this Certification Credential

---

Individuals who earn this credential will have demonstrated their understanding of:

- The topic of Business Modeling and how it relates to Enterprise Architecture within a TOGAF context
- The concept of Business Capabilities and how they can be modeled
- Value Streams and value stream mapping
- Information Mapping
- How to apply the TOGAF Business Scenario method
- How a Business Architecture can be developed with the TOGAF Architecture Development Method (ADM)

## Assessment

---

The credential is only awarded by passing the examination.
