

Final screenshots from Archi

Views imported from QPR EnterpriseArchitect. (Final step in the round trip testing.)

Previous step: loaded meff3.xml (exported from Sparx Systems Enterprise Architect) to QPR EnterpriseArchitect. Exported model to meff4.xml. Imported meff4 into Archi.

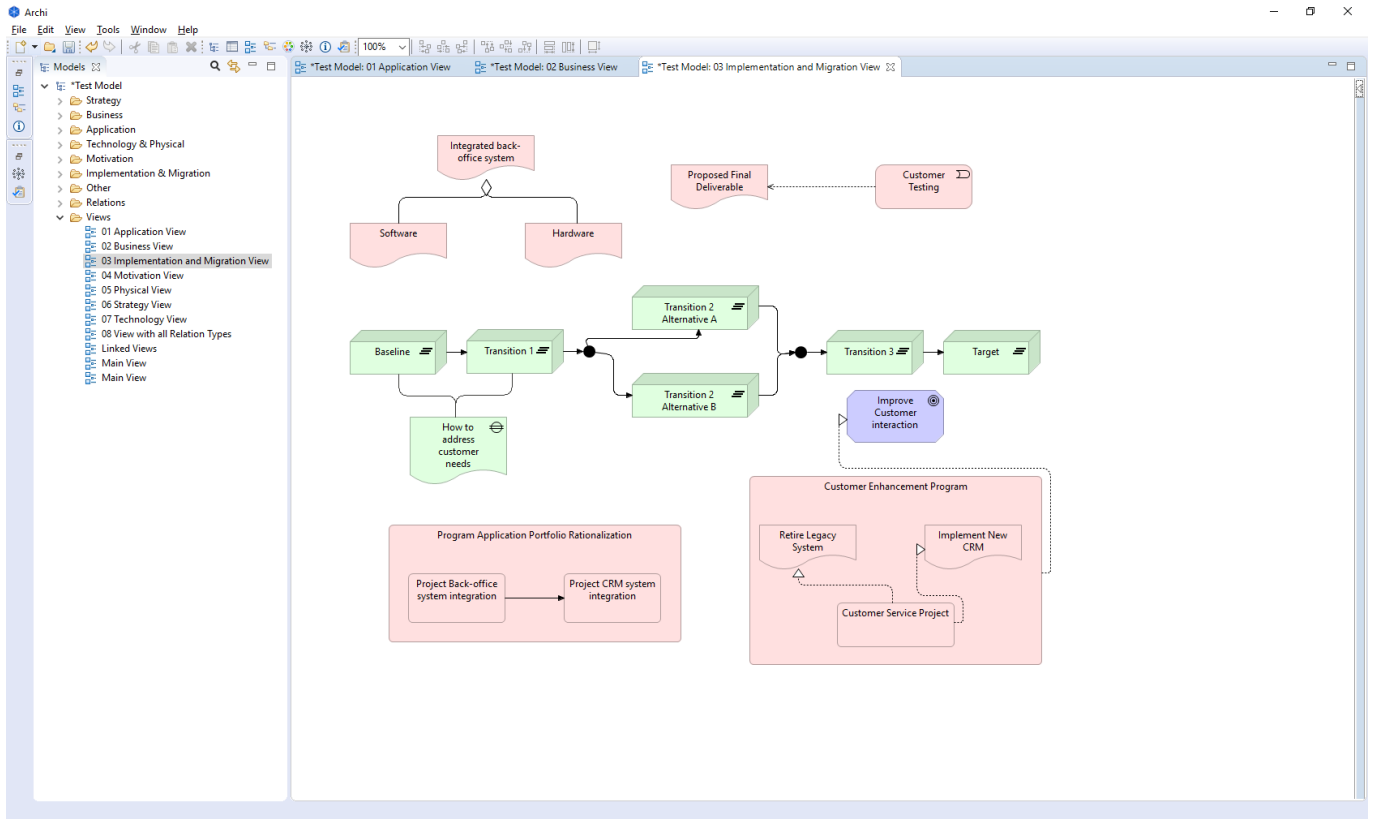

01 Application View

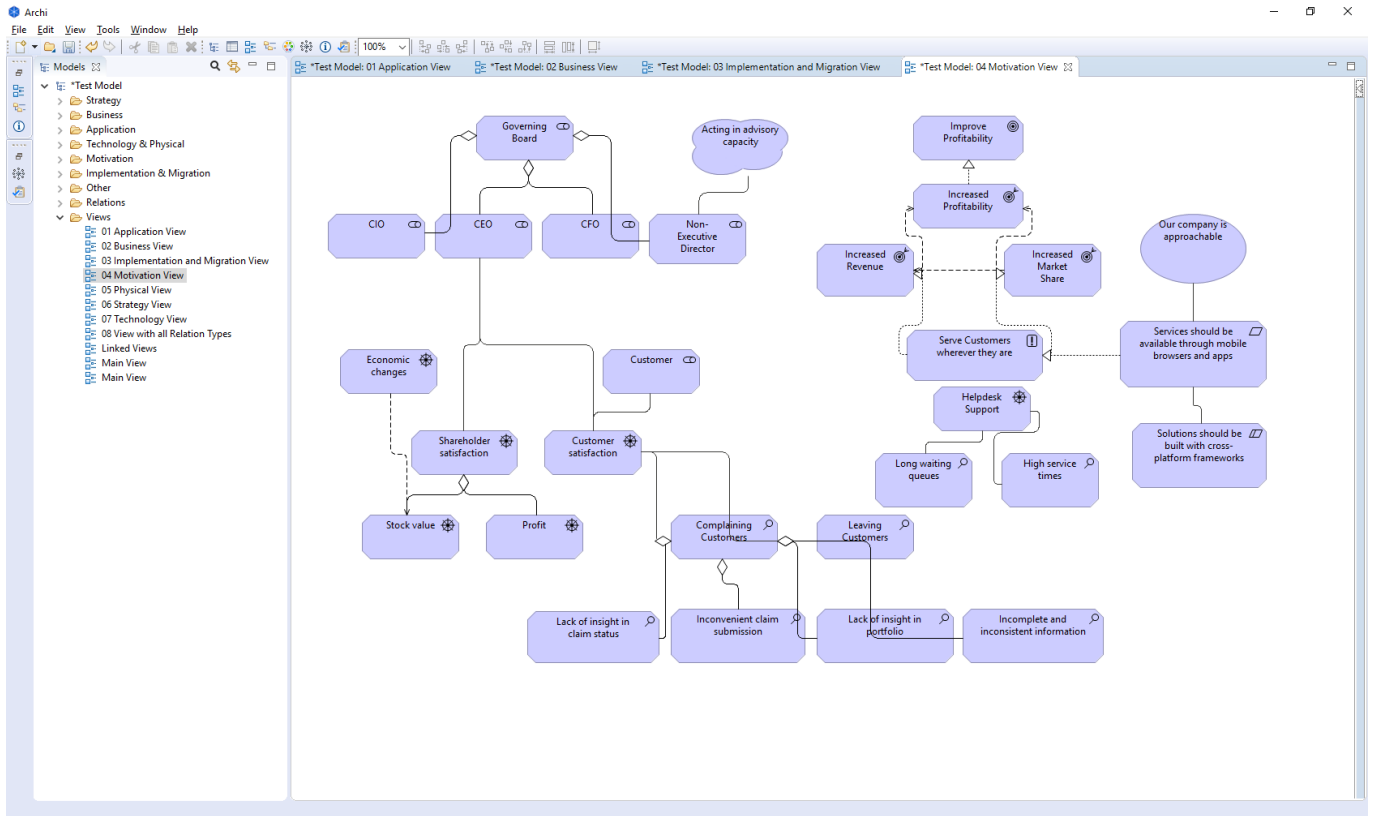

02 Business View

Business interface Web form in default notation (not alternative as in original model).

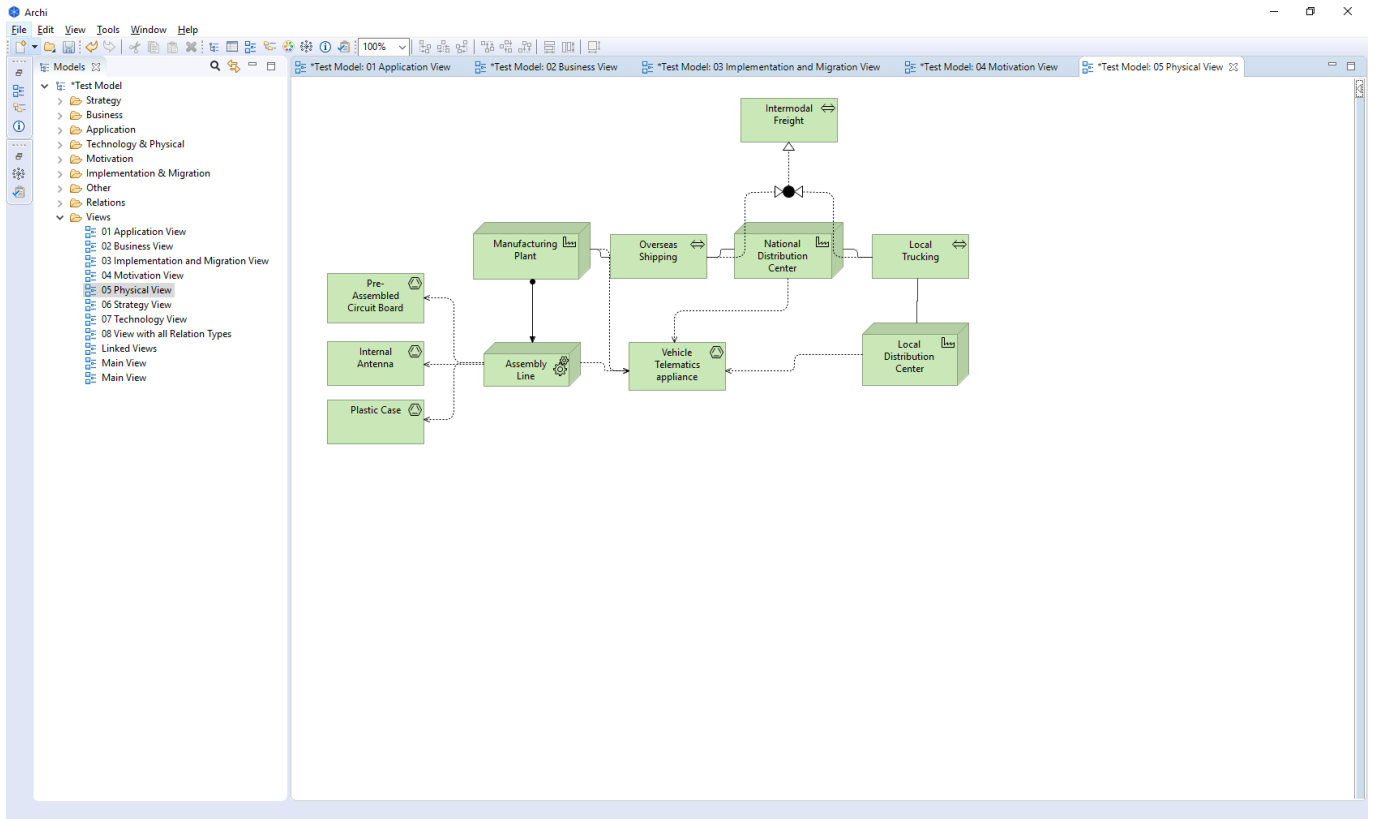

03 Implementation and Migration View

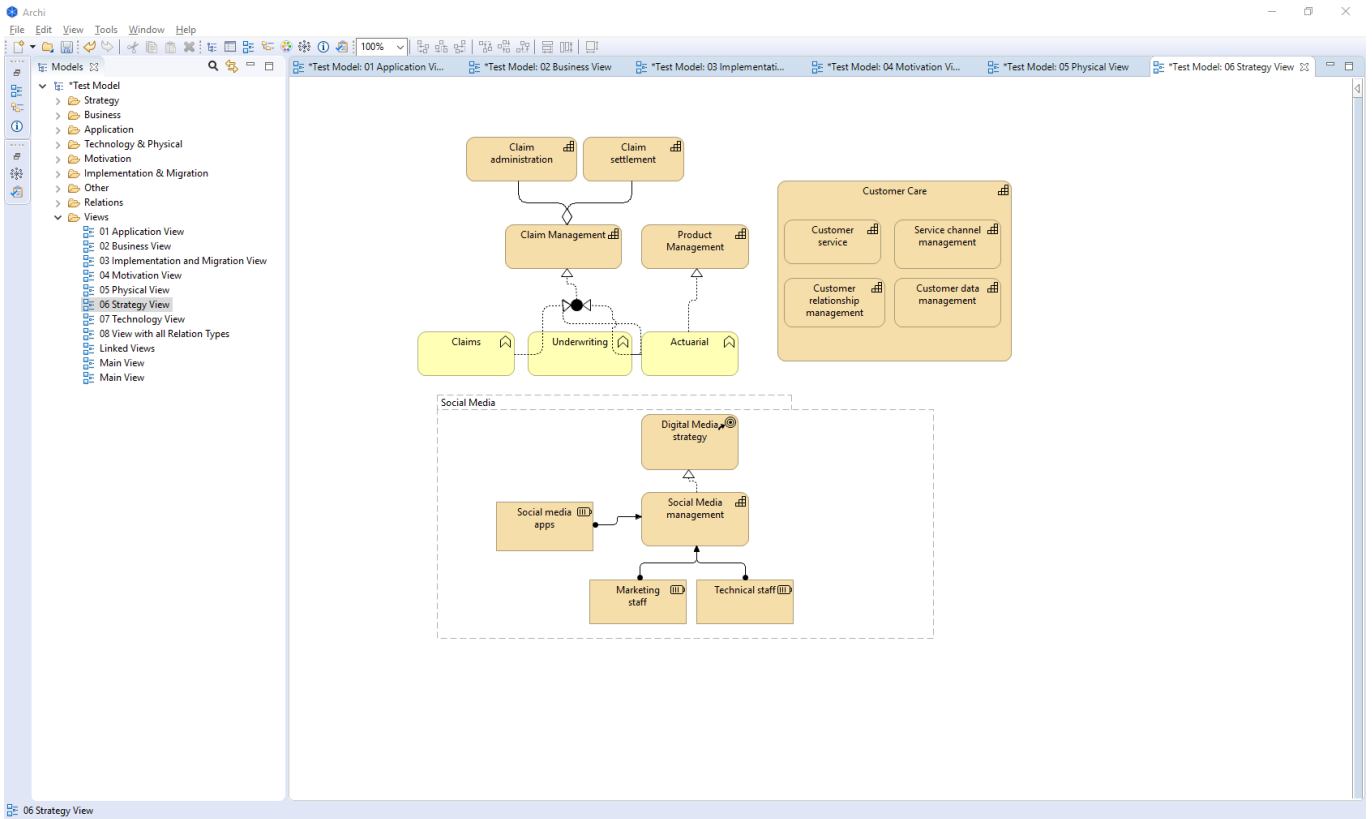

Incorrect Access visualization caused by Spars Systems Enterprise Architect.

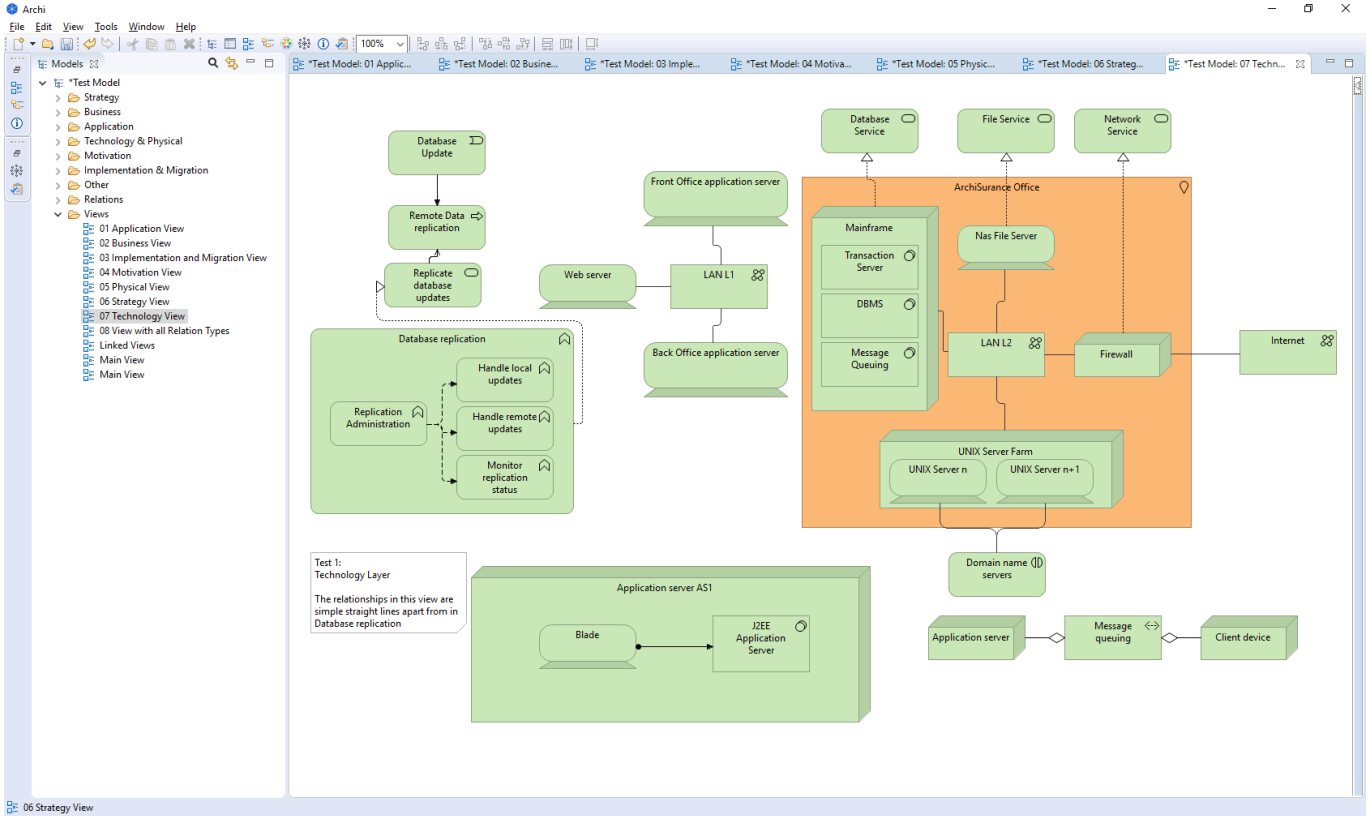

04 Motivation View

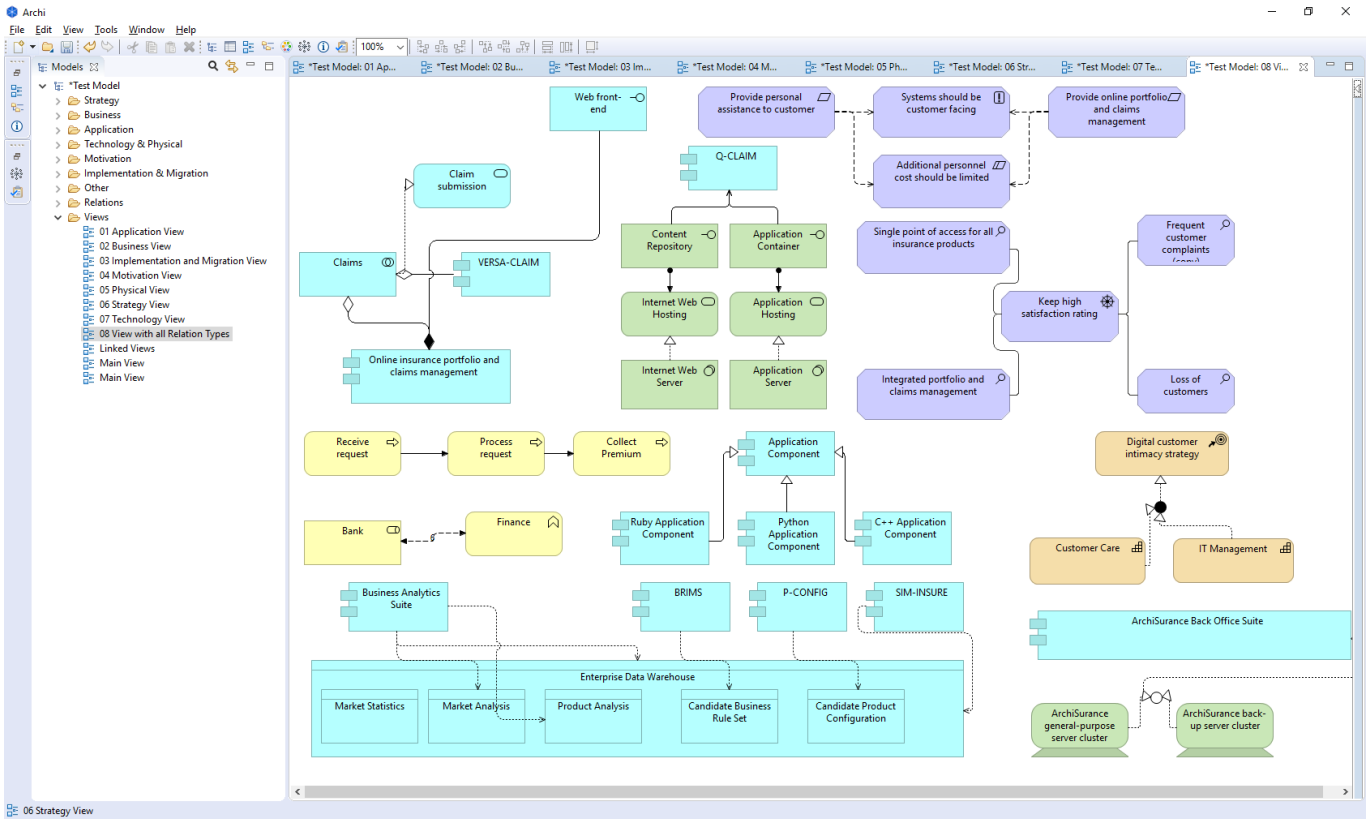

05 Physical View

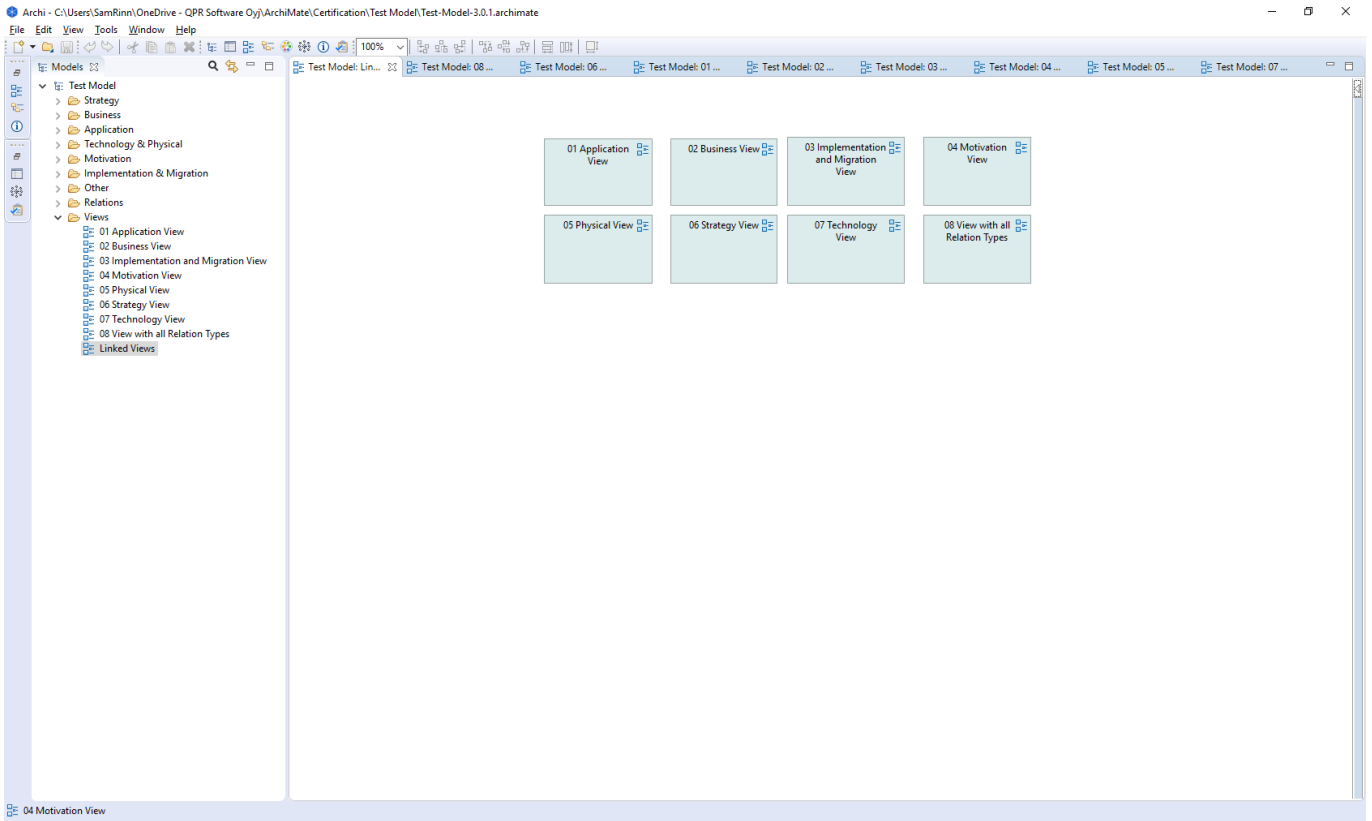

06 Strategy View

07 Technology View

08 View with all Relation Types
